EKAMAI INTERNATIONAL SCHOOL JOB VACANCY

Position Title: Elementary Computer Teacher
Type of Appointment: One Year Contract initial with the possibility of extension
Desired Start Date: August 1, 2024
Closing Date: May 15, 2024

Job Overview:

As an Elementary Computer Teacher, you will be responsible for designing and implementing engaging computer science and digital literacy curriculum for students in elementary grades. Your role will involve fostering a love for technology, computational thinking, and digital skills among young learners while ensuring a safe and supportive learning

Responsible to: Elementary School Principal

Responsibilities:

- Develop and deliver age-appropriate computer science and digital literacy curriculum for elementary students.
- Integrate technology into classroom instruction to enhance learning experiences across various subjects.
- Teach fundamental computer skills such as typing, internet navigation, and basic software applications.
- Introduce elementary students to coding concepts through interactive activities and games.
- Foster creativity and problem-solving skills through hands-on projects and collaborative activities.
- Provide guidance and support to students as they explore digital tools and resources.
- Assess student progress and provide constructive feedback on assignments and projects.
- Stay updated on advancements in educational technology and incorporate relevant tools and techniques into teaching practices.
- Promote digital citizenship and responsible use of technology among students.
- Establish and maintain a positive classroom environment conducive to learning and exploration.
- Communicate regularly with parents/guardians regarding student progress and classroom activities.
- Participate in professional development opportunities to enhance teaching skills and knowledge of computer science education.

Qualifications:

- Bachelor's degree in Education, Computer Science, or related field.
- Experience working with elementary-age children in an educational or recreational setting.
- Strong understanding of computer science concepts and digital literacy skills.
- Excellent communication, interpersonal, and classroom management skills.
- Passion for technology and a commitment to inspiring young learners in the field of computer science.
- Seventh-day Adventist church member in good standing.
