

EKAMAI INTERNATIONAL SCHOOL

JOB VACANCY

Position Title: High School Biology and Physics Teacher
Type of Appointment: One Year Contract with 3 months probationary period
Desired Start Date: August 1, 2025
Closing Date: June 20, 2025

Job Overview:

The High School Biology and Physics Teacher is responsible for delivering high-quality instruction in both biology and physics to students in grades 9–12. The role involves preparing lesson plans, teaching classes, conducting lab activities, assessing student performance, and promoting scientific inquiry. The teacher fosters an engaging and supportive learning environment that encourages academic excellence, critical thinking, and spiritual growth in harmony with the values of Seventh-day Adventist education.

Responsible to: High School Principal

Responsibilities:

- Teach high school biology and physics I courses in alignment with the school's curriculum and academic standards.
- Prepare and deliver engaging lessons, demonstrations, and laboratory experiments that enhance students' understanding of scientific concepts.
- Encourage students to explore the relationship between science and faith, integrating a biblical worldview into the learning experience.
- Assess student learning using a variety of methods, including tests, quizzes, lab reports, and projects.
- Maintain accurate records of student progress, attendance, and behavior.
- Foster a safe and respectful classroom and laboratory environment.
- Encourage curiosity, collaboration, and responsible conduct in scientific exploration.
- Communicate regularly with students and parents regarding academic progress and expectations.
- Participate in school meetings, spiritual programs, extracurricular activities, and professional development.
- Uphold and model Christian values and the mission of Seventh-day Adventist education in all professional responsibilities.

Qualifications:

- Bachelor's degree or higher in Biology, Physics, Science Education, or a related field (required).
- With a 5-year Thai Teaching License.
- Experience teaching high school science, particularly biology and physics (preferred).
- Strong knowledge of scientific content, lab safety, and instructional strategies.
- Excellent communication, interpersonal, and classroom management skills.
- Proficiency in using educational technology and digital resources.
- Commitment to Christian education and the philosophy of the Seventh-day Adventist Church.
